SUMMARY

Detail-oriented Software Engineer specializing in frontend development. Experienced in delivering end-to-end web projects with a focus on user experience and performance. Passionate about writing maintainable code and staying current with evolving frontend ecosystems and best practices.

PROJECTS

Vision Theme

- Architected and developed a high-performance, fully responsive e-commerce theme from scratch
- Developed the theme using **HTML, CSS, SaaS, JavaScript, Twig, TailwindCSS**
- Built a fully responsive layout supporting mobile, tablet, and desktop breakpoints
- Implemented dynamic data rendering by integrating Salla backend objects into the frontend using Twig templating
- Developed custom JavaScript components and interactive UI features, including a custom product/content slider
- Applied advanced layout techniques using CSS Flexbox and CSS Grid, including complex responsive layout handling
- The theme has been **adopted by 50+ merchants** and is currently used in live production stores

Developer Portfolio

- Designed and developed a responsive, Arabic RTL personal portfolio website using **Next.js 16, TypeScript, and Tailwind CSS 4**, featuring a dark-themed design system with motion animations
- Built a file-based blog using **Velite** with Markdown content, category filtering, dynamic routing, reading time estimation, and **Shiki** syntax highlighting
- Implemented smooth page animations with **Framer Motion**
- Engineered a component-based architecture with **23+ reusable React components**, responsive grid layouts, and a sticky navigation header

EDUCATION

Saudi Electronic University

Bachelor in Information Technology

2024 – 2028

Qassim, SA

SKILLS

Languages: JavaScript, TypeScript, Java, Python

Frontend : React.js, HTML/CSS, Next.js, Astro.js, Tailwind CSS, Framer Motion
